**Conceptual Physics Review (Chapters 2 & 3) Solutions**

At Six Flags Great Adventure Amusement Park in New Jersey, a popular ride known as "Free Fall" carries passengers up to a height of 335 m and drops them to the ground inside a small cage How fast are the passengers going at the bottom of this exhilarating journey? Ignore air resistance To get velocity, we'll need to know for how long the cage falls, so we have to get time first: !  $d=1$
