CHAPTER II THEORIES AND CONCEPTS IN SOCIOLINGUISTICS

Sociolinguistics focuses on language use, that is, on what can be said in a particular language, by whom, to whom, in whose presence, when and where, in what manner and under what social circumstances. The following views/opinions by various sociolinguists also help in better understanding of the nature of sociolinguistics. Gumperz (1971) has observed: "Sociolinguistics is an attempt to find

Gender and Language: Challenging the Stereotypes

Introduction Gender and language studies to date have evolved from frameworks largely designed and imposed by men, to a feminist perspective aimed at exposing sexism in language and further to studies that consider paradigms of dominance and difference in language from a variety of perspectives. Gender studies, feminist studies and sociolinguistic studies all currently lack consensus as to

Labov in Sociolinguistics: An Introduction

variationist sociolinguistics. In this Introduction, the editors offer their rationale for the shape of the theme issue. We briefly survey the innovations and impact of the New York study, together with the subsequent development of the field by Labov and others. We then touch on several strands of Labov's contribution to sociolinguistics: language change, linguistic evaluation

Sociolinguistics and Language Education review

variation; language and literacy; language and identity; language and interaction; and language and education. The thematic structure of the book helps the reader to gain a sense of the overall picture of developments in sociolinguistics. In the introduction, the editors are keen to promote a critical approach to language teaching and open up
